

Eudlo Hall Committee Strategic Plan 2015, updated May 2018

Our activities are inspired by a **Vision** of the Eudlo Village, which is a community that is sustainable, supportive, diverse and that fosters a sense of belonging for all community members.

Our **Mission** is to contribute to Eudlo's cultural identity, and ensure that future decisions about developing community assets take into account financial, environmental and social sustainability that enable and encourage community participation.

We aim to do this by:

Goal 1: Managing, maintaining and building sustainable options for community assets and resources. The main assets being the Hall and the Recreation Grounds, the latter offer referred to as Wominjeka.

- Host community events
- Maintain community assets
- Generate income for use in maintaining and upgrading community assets

Goal 2: Engaging the Eudlo community in ongoing projects to build sustainability and a sense of community identity

- Collaborate with local communities around regional/national trends impacting on those communities

Goal 3: Sustaining a dynamic community association

- Sustain a capable and motivated management committee
- Be accountable for actions and responsive to trends
- Be the platform for supporting future community projects

Goal 4: Acting as an advocate for maintaining the cultural aspects that underpin Eudlo's identity as an autonomous community

- Feed into the Regional Plan for the Sunshine Coast

Goal 1: To manage, maintain and build sustainable options for community assets and resources
